### Client Challenge

More than 500,000 documents required review within a six-week timeframe to comply with an energy industry FTC Second Request.

### Compliance Solution

More than 100 contract attorneys conducted the review, which took place in our 15,000 square foot, customizable New York facility. During the pre-case assessment, Compliance project managers provided workflow and technology recommendations that were instrumental in increasing review throughput and lowering costs by an estimated \$250,000. The production set was delivered in time to meet the strict deadline.
